REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1 – 12 are allowable over prior art of record. The prior art of record failed to teach a transmitter connected to a data source and a data receiver comprising, an input port for accepting a control having a first and a second state, a serializer designed to operate at first data rate, a first interface that receives a first set of data from the data source at second data rate and delivers a second set of data to serializer at the first data rate, the second data rate is being lower than the first data rate when the control signal is at the first state and the second rate is being as same as the first data rate when the control signal is at the second state as claimed in independent claim 1. Thus claims 1 – 11 are novel and unobvious over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
